These expeditions are already under way, some of them with two or three days start of General Miles, so that the delay should not be very great. After all the difficulty about the naval convoy, and the first conclusion of the naval authorities that none was necessary, the strenght of that now furnished is surprising. Secretary Alger believes that General Miles, on the Yale, will arrive at his destination Sunday morning with 3,000 men under his immediate command. General Schwan's brigade, comprising the Fifth, the Eleventh and Nineteenth United States infantry, a splendid body of trained soldiers, sailed from Tampa yesterday to join General Miles, and if the Porto Rican expedition is not an immediate success it will not be for lack of disposition in the war department to supply every requisite.

A man in the darkness of hopeless dis-ease is of all men most miserable. When doctors and medicines innumerable have been tried and found wanting, and loving friends vainly urge upon him the food he cannot eat and which brings him no nour-ishment or strength, what is to be done? Men and women who have sunken so far into weakness and disease that the far into weakness and disease that the whole body seems to be permeated and poisoned by it have found health, strength and vigor through the transforming, electrifying power of that wonderful "Golden Medical Discovery" which Dr. R. During all the years since then this marvelous "Discovery" has been building up weak and debilitated constitutions by its weak and debilitated constitutions by its extraordinary influence upon the human, nutritive system. It gives the digestive organism keen power and capacity to appropriate every life-giving element from the food taken into the stomach and transforms it into rich, highly vitalized blood and healthy flesh, bone, sinew and nerve

Admiral Dewey's announcement of the arrival of the second detachment of United States troops at Cavite has given great comfort to the war department, between the Spaniards and insurgents, and without being able to depend very largely upon either. With these added troops it will now be possible to demand the surrender of Manila, but such action is to be deferred until all the United States troops now affoat have arrived in Manila bay, unless the attitude of the insurgents forces prompter action on the part of the American commanders, military and naval.

One other was driven ashore and sunk and a third was driven ashore and is believed to have been dis-

No casualties occurred on board any of our vessels. Great care was taken in directing the fire that as little damage as possible should be done to the city itself, and so far as could be observed, little, if any, was done.

present indications mean anything. It is pretty hard on Blanco's reports of operations in Cuba that they now

have to pass through the hands of a United States censor. The last cable is finally in the hands of the Americans and it is probable that Spain will hear no more of those brilliant Spanish victories in Cuba.

President McKinley's was auxious that this war should not begin with a Bull Run. He took what time was needed to get ready for fighting and then he pressed his advantage with great success. Those people who thought the president would not fight have been compelled to revise their opinions.

THE democrats of the Ninth district have nominated Joe Cheadle for Congress. He was nominated by the popalists a few weeks ago. A large number of the delegates to the democratic convention when they saw that Cheadle had the convention packed withdrew from the hall and openly declared that REPUBLICAN DISTRICT CONVENTION | Joe would have to take care of himself so far as they were concerned.
